Description

### Six Digit Nixie Clock Controller - Nixie clock 2012

**===== P R O J E C T=====**

Six digit nixie IN-12, vacuum tubes.

Simple schematic and diagram, easy to build own chip nixie clock.

You need only pic microcontroller PROGRAMED .....AND PCB IN-12

### NIXIE CLOCK OPTION

1. 12/24 Hour mode
2. Selectable lead zero suppression
3. Selectable digit cross-fade
4. Date display with selectable date format and display frequency

5. Scrolling date with adjustable speed
6. Digit cycling with various modes to prevent cathode poisoning
7. Dimmer control and 24hr timed dim/display off function
8. Software time correction
9. Alarm with adjustable snooze and tone + dc option
10. Neon colon indicator support at 1 Hz

[/// See how it works ///](#)

*YOU GET ONLY PIC PROGRAMED PROCESSOR AND DIAGRAM, USER MANUAL AND PCB FITS FOR NIXIE IN-12*

Please note: [Tubes and parts are NOT included in the listing](#)

-

*IS 100% WORKING TESTED .I MAKE MANY CLOCK IS WORKING OK...*
